

Equality Objectives 2019 – 2022

We are consulting governors, students and staff about the ways in which we will achieve the following objectives:

Shared Values:

To better equip students from all groups to be confident, informed and articulate citizens able to contribute to local, national and global debates.

Proud to be Me:

To ensure that we provide a safe, inclusive, supportive environment in which all members of the college can be themselves and express their identify and beliefs.

Broadening Horizons:

To remove barriers so that everyone has the opportunity and support to participate, aspire, and progress.

Raising awareness:

To extend the collection and analysis of data, to ensure that the concerns and progress of all groups are monitored in order to inform decision-making and practice.
